

QuickMount® CorruSlide®

Metal Roof Attachment

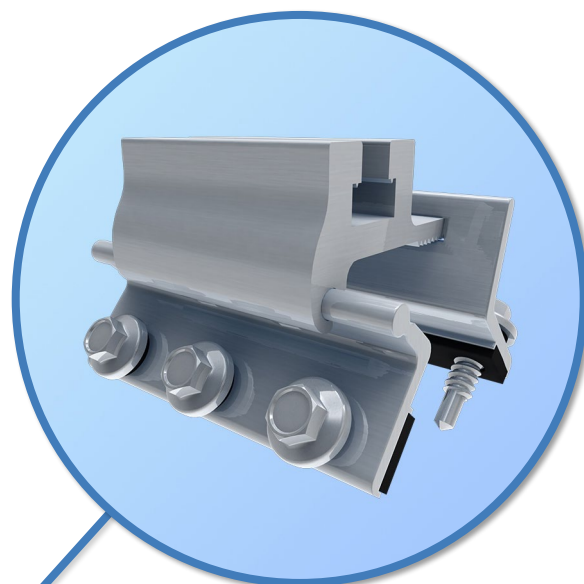

Fits Corrugated & Trapezoidal Profiles

Metal roofs can be a great option for many buildings. They're low-maintenance, durable, and water-tight.

The QuickMount® CorruSlide® is engineered to fit nearly any corrugated or trapezoidal metal roof profile. The adjustable, hinged roof mount attaches to the sides of the panel ribs to avoid where standing water may occur.

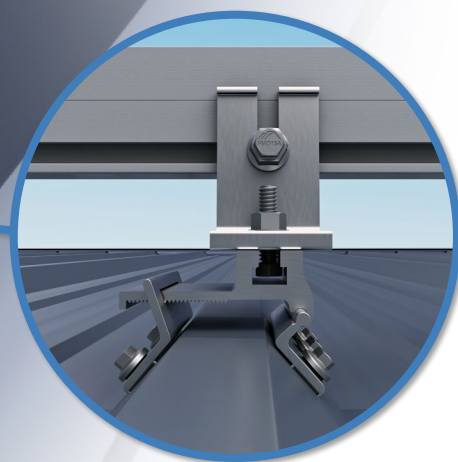

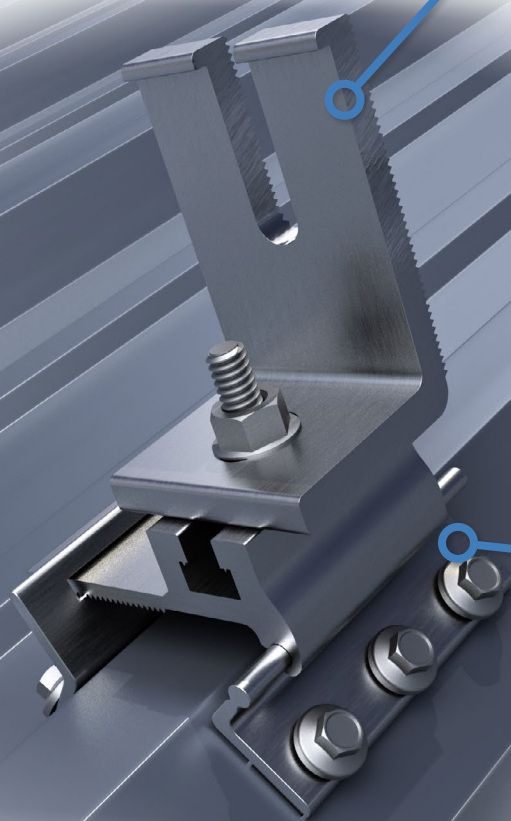

CorruSlide® provides North-South and East-West adjustability. The pre-installed EPDM gaskets and five self-tapping screws with EPDM washers ensure rugged, watertight performance. It can be used on roof panels having a thickness of 24-28 gauge.

As a part of a UL 2703 listed system, it is integrated with our Pitched Roof Design Assistant software as well.

N-S Adjustability for IronRidge® L-Feet

CorruSlide® features an open-ended T-slot for North-South adjustability, to easily line up rails. The side brackets can also be adjusted East-West to fit various rib widths, from 1-3" at 45 degrees, by sliding the top piece through the provided bracket slot.

Vast Metal Roof Panel Compatibility

CorruSlide® is engineered to universally fit nearly any trapezoidal or corrugated metal roof profile. For a comprehensive guide on the specific profiles that fit best, see the backside (next page) of this document.

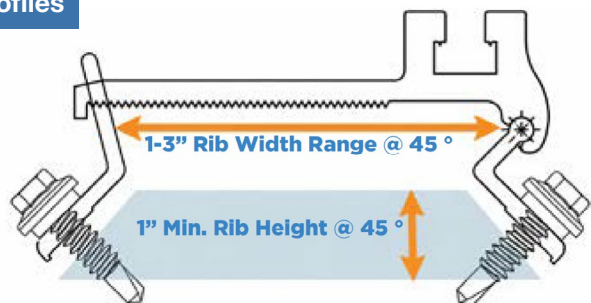

25-Year Warranty
Product guaranteed free of impairing defects.

CorruSlide® Metal Roof Compatibility

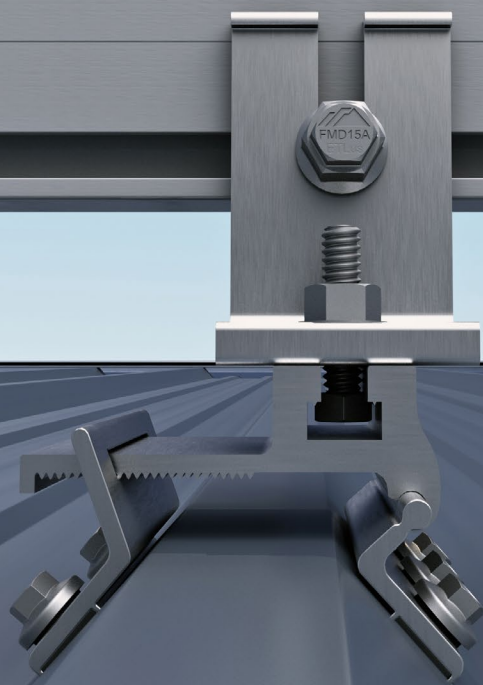

QuickMount® CorruSlide® can be used on nearly any trapezoidal or corrugated metal roof profile with a rib width of 1" to 3" and a 1" minimum rib height (on a 45-degree slope). See CorruSlide and Flush Mount Installation Manuals for details.

Profiles

Racking Compatibility

CorruSlide® is part of the QuickMount® family of quality solar attachments, engineered and certified to perform with IronRidge® XR Rails®—but also performs well with other racking solutions.

Included in Design Assistant

CorruSlide® is available in our Pitched Roof Design Assistant, with a stamped certification letter.

Certification & Testing

CorruSlide® is a certified component that was tested and evaluated to conform with UL 2703.
